ЭТЮДЫ В РУССКИЕ ШАШКИ

Антология. Часть I

Гомель-1996

ОТ АВТОРА

Настоящим сборником начинаем издание антологии шашечных этюдов, опубликованных за последние сто лет в России и Советском Союзе. Сюда же включены некоторые произведения, являющиеся переносом со 100-клеточной доски.

В антологии представлены только этюды, отвечающие современным требованиям шашечной композиции, а именно: силы белых от 1 до 4 единиц, силы черных – не более 6, и не менее двух композиционных разветвлений. Все этюды расположены по системе силовой классификации от одной простой до четырех дамок.

Антология рассчитана на шашистов любой квалификации как пособие по эндшпилю. Ознакомившись с многочисленными приемами, шашисты будут гораздо увереннее и грамотно разыгрывать окончания партий. Но наиболее широкое поле деятельности антология представляет для составителей этюдов и проблем: это множество позиций, которые ждут углубления, а также могут быть использованы в качестве финальных мотивов. В течение 40 лет автор собирает этюды из всех доступных источников: книг, журналов, газет, материалов соревнований. И вот теперь решено ознакомить с этим собранием всех желающих шашистов.

Автор будет весьма признателен за уточнения тех или иных вариантов, первоисточников.

УСЛОВНЫЕ ОБОЗНАЧЕНИЯ:

+ – выигрыш

= – ничья

? – плохой ход

ABC – композиционные разветвления

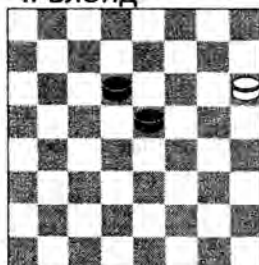

I, II, III – ложные следы и их опровержения

a, b, c – некомпозиционные разветвления

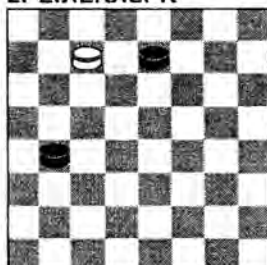

Л.С.ВИТОШКИН, гроссмейстер по шашечной композиции.
