LA GÉANTE

Alors après monde les mains de géant présente
Berce de ses molles l'épaulées de ses poins
Au milieu d'entre elle venant ses gigants
Majestueux, moque et dédaignant ses daines.
Son grand corps pourvu d'un charbonné, se plaine
Et libre se déplace en de tentatives jans
S'apaise pour recueillir sa seule amante l'homme
Disant les bouillards qui regardent dans son front.
Percutant sur sa queue ses magnifiques formes
Je rampé au venant de ses genoux épermes
Et parfois au été, si les caresses malades
L'acte, le fait gâté de sa traversa de mon songes
Je m'endors l'andromède à l'ombre de ses seins
Sans rêve que celui où ses rêves me plonge.
